OUR SERVICES

24/7 Emergency Service

We've all experienced it. You're in the middle of a blustery cold Winter, thankful that you have a cozy warm house to come to home to. That is until the day your furnace decides to fail, leaving you and your family in the cold.

Rely on the professionals at All Weather to come to the rescue 24 hours a day, 7 days a week and restore your home comfort.

Free In-Home Consultations

Whether you are looking to replace your air conditioner, upgrade your furnace or simply want more information on how to improve your home's indoor air quality - All Weather is here to help.

We offer free, no obligation consultations, where our experts will make recommendations on how to improve your home comfort based on your family's needs and budget.

Annual Preventative Maintenance

Keep your heating and cooling equipment in top notch condition with All Weather's **Preventative Maintenance Plans**. Just like your car needs regular oil changes to remain reliable, preventative maintenance keeps your furnace and air conditioner operating at it's full potential for years to come. Ask us about the many other benefits to preventative maintenance care.

All Brands & Models

All Weather takes great pride in servicing Northern Ohio with professional maintenance and repair services on all brands of heating and cooling equipment. We are committed to providing our customers with prompt, courteous, and quality HVAC solutions at affordable prices.

When you need an HVAC company you can trust, call on the professionals at All Weather Heating & Cooling. ***We call you back!***

5 REASONS TO CHOOSE

All Weather as your Home Comfort Specialist.

1. Factory Authorized

All Weather has earned the distinguished, national endorsement as a Carrier Factory Authorized Dealer. One that less than 5% of HVAC companies hold Nationally. Factory Authorized Dealers have fulfilled a rigorous set of business standards and training to become the home heating and cooling experts to turn to.

2. NATE-Certified

North American Technician Excellence (NATE) is the leading certification program for technicians in the heating, ventilation, and air-conditioning industry. All Weather's technicians have passed NATE's rigorous set of exams, which ensure your safety and back-up our commitment to doing the job right the first time.

3. Healthy Air Expert

With today's rising concerns about air quality, allergens, and respiratory illnesses, more and more homeowners are looking for solutions to improve their indoor air quality. All Weather has been certified as a Carrier Healthy Air Expert, a specialist you can turn to for all your home comfort needs.

4. Licensed, Bonded & Insured

We understand that hiring the right HVAC company can make the difference between excellent service and costly repairs. All Weather has taken the steps to be fully licensed, bonded and insured to ensure your family's protection and safety.

5. Done. Right. Guaranteed.

For comfort and value, there is a simple, risk-free solution to ensure that your heating and cooling professional performs as promised. Choose All Weather Heating & Cooling, where your satisfaction is guaranteed.

Healthy Air
EXPERT

► HVAC Product Line-Up

Furnaces

No matter what type of fuel or heat source your home has, All Weather offers a wide range of furnaces to fit your needs and your budget.

Air Conditioners

Whether you are looking to install central air conditioning or need to replace your existing condensing unit, All Weather has a full selection of air conditioners to fit every application.

Heat Pumps

Heat pumps are a great solution for your home because they work to provide both heating and cooling. Ask us about using a heat pump as an efficient alternative to oil heat.

Geothermal Heat Pumps

There's an invaluable energy source buried right in your own backyard: The earth itself. Geothermal systems run on electricity but use the earth's thermal energy to heat and cool your home so you can enjoy higher energy efficiency inside—no matter how extreme the weather gets outside.

Boilers

Boilers are the perfect heat source for your home's radiant system. All Weather's selection of boilers deliver efficiency and warmth at an affordable price.

Duct-Free Systems

Duct-free systems are perfect if you have a room or small area of your home that needs a little extra comfort. These systems provide heating and cooling and are offered in a variety of models.

► HVAC Product Line-Up

Garage Heaters

If you utilize your garage as a work shop or a functional living area of your home, All Weather's garage heaters are the perfect solution you need to take the chill out of the air.

Hot Water Heaters

If your current water heater needs replaced, All Weather has the solution for you. We offer a full line of residential and commercial water heaters available in electric and gas, including traditional and tankless models.

► Accessories

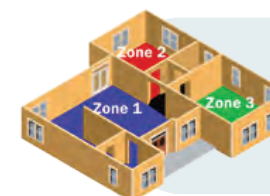

Indoor Air Quality

The quality of the air inside your home can be up to 10 times more polluted than the outside air. Call upon the experts at All Weather for all of your indoor air quality needs. We carry a full line-up of air cleaners, humidifiers, ventilators and more.

Thermostats & Controls

From basic thermostats to advanced wi-fi enabled controls, All Weather has a wide selection of products to fit any need or functionality.

Zoning

Zoning allows you to take control of your indoor comfort room-by-room. If consistency of temperature is what you are after, our zoning products are the solution for you.
